

INSIGHTS incite CHANGE

Attracting and retaining world-class faculty members—such as Patrick Mather—is just one of the goals of The Campaign for Syracuse University. Others include:

Cross-Connections—interdisciplinary teaching, research, and community engagement initiatives accelerate discovery of the innovative solutions the future demands.

Student Access and Support—scholarships and fellowships attract students of merit from a wide range of backgrounds.

Faculty Excellence—endowed professorships attract high quality faculty for whom teaching and research are interconnected passions.

Building Futures—modern facilities equipped with up-to-date technology give students a competitive edge.

Annual Support—the Fund for Syracuse provides flexible resources that can be used where they are needed most.

Visit campaign.syr.edu to learn how your campaign gift can support Scholarship in Action and incite positive change as never before.
